It's Hot!

When I was a little girl, we used to visit my Daddy's family in Brownsville, TN, after church on Sunday. The last place we would stop was my Uncle Herman and Aunt Rosa's house. They were both in their 80's and never had running water in the house. I used to dread those trips to the outhouse! Thankfully, they had a window unit a/c in the front room aka bedroom and one HOT summer visit, we all sat around the empty fireplace and my Uncle Herman asked me if I ever heard the story about the mule that froze to death in the middle of July?! He proceeded to tell me that an old farmer kept his corn up in the loft. One hot summer day (much like today), the mule was standing in his stall and that corn started popping! Well, the popcorn started falling all around the mule. The 'ol mule thought it was snow and sure enough...he froze to death! I truly believe that could happen around here right now! Happy "Dog Days" of summer! -Becky

"THE BOYS ARE BACK IN TOWN"

Well, the girls are anyway. Our girls, now all grown up, descend upon the house each year at this time to celebrate their mom's birthday. Not only the day or the week, but now it's called birthday month. It's gotten off to a good start though, with fireworks, parades, bbq's and hot dog eating contests. I can say that during their stay, a lot seemingly gets done, as they are gone daily to "run errands" while I, of course, stay here in my 12x12 office with 5 dogs. It's all good though as it shall culminate this weekend with her OFFICIAL birthday. I only have to remember to get the horses (mice) and chariot (pumpkin) to pick her up for the main ball! And, of course, having her try on the glass slipper as her "gift" in order to match the other one I broke. Enjoy your summer and stay cool!

Wendy's Homemade Frosty

- 1/2 gallon of chocolate milk
- 1 14 oz can of sweetened condensed milk
- 1 8 oz tub of Cool Whip

Place all ingredients in a blender & mix until smooth & creamy. Pour the mixture into a freezer safe container & place in freezer for about 2 hours. Be sure to stir thoroughly every 30 minutes. This will create the perfect texture and thickness of the Wendy's frosty. Enjoy!

Weird Animal Facts

- Baby koalas eat their mom's poop to grow an immunity to the chemicals in the eucalyptus plant.
- Baby elephants suck on their trunk for comfort, just like how baby humans suck on their thumbs.
